### Academic Advancement Programs (AAP)

AAP prepares UCF students, especially focusing on underrepresented, low-income, and first generation college students, to pursue advanced degrees. AAP works in collaboration with faculty, staff, local, and national partners to provide a range of graduate school preparation programs and services. Students have the opportunity to participate in a variety of initiatives designed to increase their awareness and knowledge of the graduate school application process, graduate funding, summer research programs, and fellowship opportunities.
